

## **PRODUCT FEATURES**

- Z-Wave
- · Internal room sensor
- · Humidity sensor
- SmartStart
- · Automatic brightness control
- Lock mode/child lock

· Weekly schedule

5 associations

• Firmware update (OTA)

Inverted output (cooling)

- Battery-operated thermostat for controlling an external relay
- · Proximity sensor to turn on the display
- Supports encryption modes S0, S2 Authenticated Class, S2 **Unauthenticated Class**

EOL

Z-Wave battery operated temperature sensor

Art.no 4512666

**GTIN** 7071236015307

Heatit Z-Temp2 is a battery-operated thermostat designed for use with waterbased heating systems. Used in combination with the Heatit Z-Water you can control your heating system with a Z-Wave primary controller/gateway. This is a "wire-free" solution, saving both time and money.

All communication between the Heatit Z-Temp2 and the controlled device is 100% wireless.

Heatit Z-Temp may be associated with the Heatit ZM Single Relay or another Z-Wave relay in order to control many types of heating solutions. The Heatit Z-Temp2 is an excellent choice when restoring or remodeling existing buildings, as it is easy to install without any need for wiring. We recommend using several 230VAC units to strengthen the mesh network.

Do not work together with Futurehome.
