

FOSCAM G4C OUTDOOR CAMERA

Outdoor HD Camera

Art.no	4512407
GTIN	6954836054369

HD 1440p resolution provides clear images with plenty of detail. The camera uses the H.264 protocol to compress and transmit data with minimal bandwidth usage.

The camera has space for a micro SD card of up to 256GB for video storage. Easy access to the memory card slot is achieved by removing the waterproof cover attached with two screws. Playback of recordings on the memory card can be done using the Foscam app.

The IRCut filter allows the camera to automatically switch between day and night modes. During the day, this provides natural color images with reduced contrast in strong sunlight, while at night, it optimally utilizes the limited available light.

The robust camera housing is made of stainless aluminum designed to withstand various weather conditions. The camera can be connected to your network using the included network cable or wirelessly through the camera's built-in WIFI.

The built-in IR diodes or LED lights automatically turn on in low light conditions, allowing the camera to see in total darkness.

PRODUCT FEATURES

- HD 1440p resolution provides clear images with plenty of detail.
- The camera uses the H.264 protocol to compress and transmit data with minimal use of bandwidth.
- The camera has space for a micro SD card of up to 256GB for video storage.
- Easy access to the memory card slot is achieved by removing the waterproof cover attached with 2 screws.
- Playback of recordings on the memory card is done using the Foscam app.
- The IRCut filter allows the camera to automatically switch between day and night modes.
- During the day, this results in natural color images with reduced contrast in strong sunlight.
- At night, it can make the most of the limited available light optimally.
- The robust camera housing is made of stainless aluminum designed to withstand weather conditions.
- The camera can be connected to your network with the included network cable or wirelessly through the camera's built-in WIFI.
- The built-in IR diodes or LED lights automatically turn on when it gets dark, allowing the camera to see in total darkness.

ELECTRO TECHNICAL DATA

Voltage	230V-12V
Own power usage	4.2W

PRODUCT DATA

Ambient temperature range in use	-55 to 55°C
Ambient temperature range in storage	0 to 90°C
Colour	White

ADDITIONAL INFO

IP Code	IP66
Certification	CE
Customs number	85437000

**PRODUCT DIMENSIONS**

Product height/diameter	64mm	Product Width	67mm
Product length	97mm	Product net weight	375g

MAINTENANCE

The device is maintenance-free.

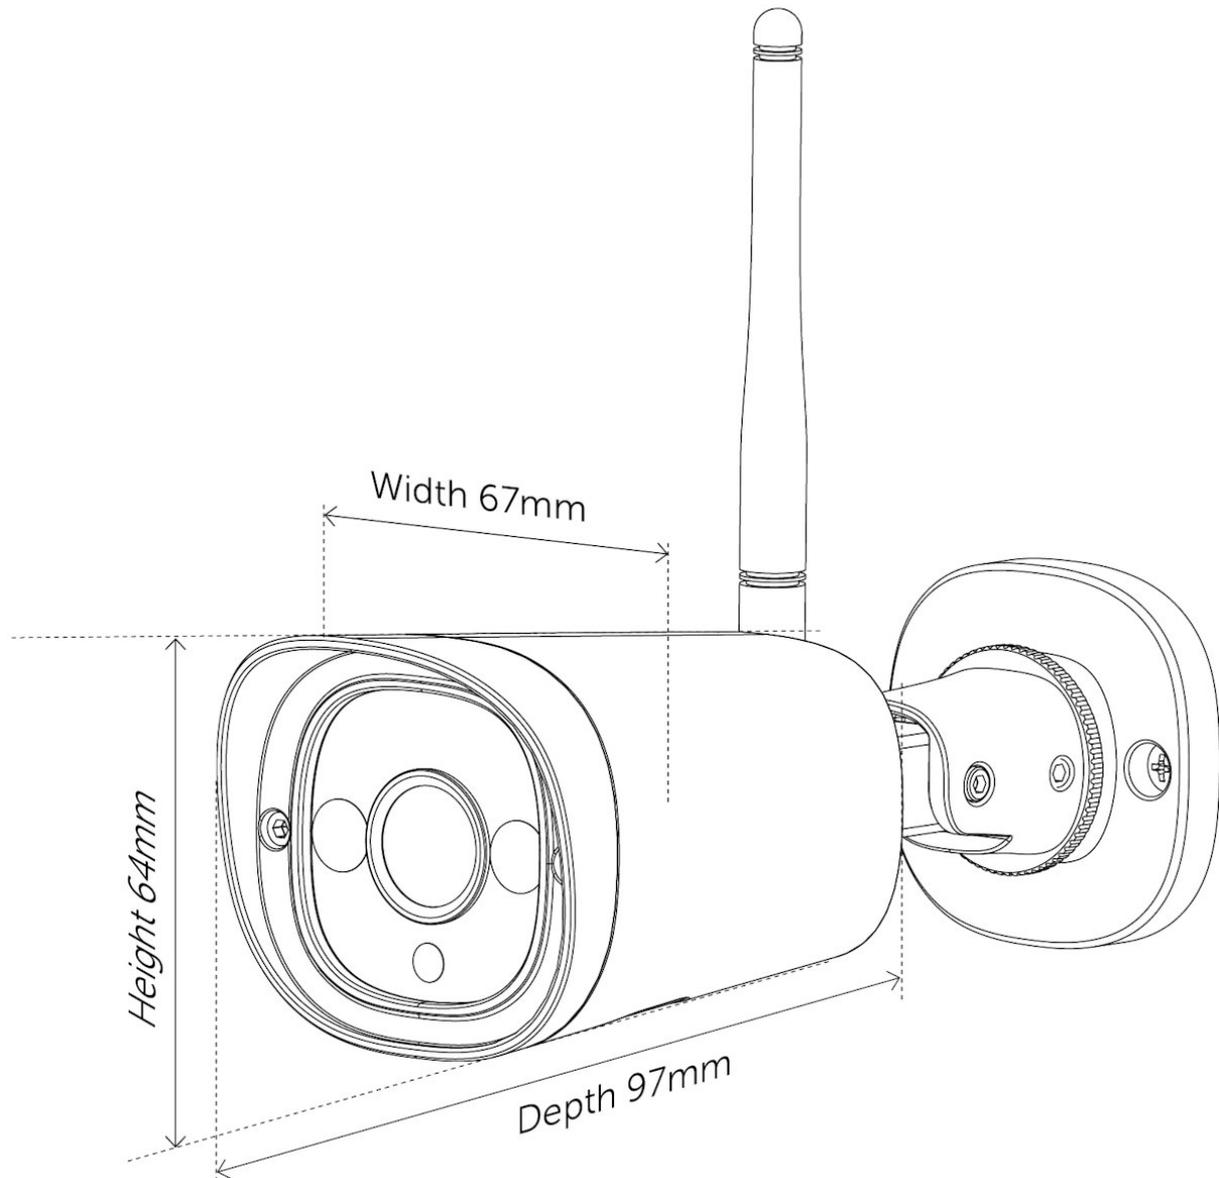

RETURN AND RECYCLING

The product must be recycled as electronic waste.

DISCLAIMER

All electrical installations must be carried out by an authorized electrical installer.
The product must be installed in accordance with our installers manual and national building codes. Any wrongful installation, misuse, damage of the product, is not covered under warranty.
