

FOSCAM DOME CAMERA

EOL

IP Camera outdoor use

Art.no 4512417

GTIN 6954836086254

The Foscam Dome Camera is a compact surveillance camera designed for outdoor use. The camera features 1080p HD resolution, allowing it to capture clear images even in challenging lighting conditions. Its wide viewing angle and smart human detection capability make it an excellent choice for outdoor surveillance of residential and commercial spaces.

PRODUCT FEATURES

- Outdoor surveillance camera
- HD resolution 1080P 1920x1080
- Vandal-resistant casing
- Magic Zoom
- Connects to the network using a network cable
- Approximately 110-degree field of view
- Sees in complete darkness with IR light with a range of up to 20 meters
- Supports Micro SD memory card (up to 64GB)
- IR-cut filter for optimal image with true colors in daylight
- H.264 protocol for reduced bandwidth usage
- Audio input/output for connecting to a microphone/speaker
- WDR 2.0 technology for the best possible image quality in challenging lighting conditions

PRODUCT DATA

Ambient temperature range in use	-10 to 60°C
Min. and max ambient humidity (RH%)	10 to 80%
Colour	White

ADDITIONAL INFO

IP Code	IP66
Certification	CE
EN Standards	CE
Customs number	85437000

The Foscam Dome Camera comes with Power over Ethernet (PoE) instead of Wi-Fi. This means the camera can receive power through the network cable, eliminating the need for a power outlet where the camera is installed. Of course, it's also possible to connect the camera to power using the included power adapter.

The Foscam Dome Camera has a slot for a Micro SD memory card. You can store videos on this memory card and play them back later by logging into the camera through a web browser.

The IR-Cut filter allows the camera to automatically switch between day and night modes. During the daytime, the camera is set to consider lighting conditions to provide sharp, natural images, while at night, it focuses on maximizing the use of limited light. At night, the automatic IR LEDs also activate, allowing the camera to interpret incoming data as if the outdoor area were illuminated.

The Foscam Dome Camera is designed for outdoor ceiling mounting but can also be used indoors, of course. The camera has an IK10 certification, which means it is built to withstand vandalism.

The camera's angle can be adjusted to cover the desired area. All adjustments must be made manually since the camera is not motorized.

ELECTRO TECHNICAL DATA

Voltage	230V-12V
Own power usage	4.5W

**PRODUCT DIMENSIONS**

Product height/diameter	185.00000238419mm	Product Width	115.00000208616mm
Product length	170.00000178814mm	Product net weight	1029.9999713898g

MAINTENANCE

The device is maintenance-free.

RETURN AND RECYCLING

The product must be recycled as electronic waste.
