

TFP HEATING CABLE MAT 60W/M²

TFP Heating Cable Mat 60W/m²

The TFP heating mat is an ideal heating solution for your floating parquet or laminate floors. TFP provides comfort heating in all rooms. Combined with the TFP underlay, the TFP heating mat replaces standard parquet underlays, and the build-up height is no more than 4 - 4.5mm. The heating mat is easy to install, thus keeping installation costs down.

The TFP heating mat has two pieces of 1.4mm thick heating cables, placed in a serpentine pattern with 50 mm spacing between the cables. The heating cables are laminated between two layers of reinforced aluminium foil. The aluminium foil ensures a rapid and even heat distribution.

The heating cable mat is available in many sizes up to 15m², and several mats may be connected to cover large areas.

PRODUCT FEATURES

- An ideal product for parquet and laminate flooring.
- Comfort heating for all dry rooms indoors.
- Can be installed directly on wooden or concrete sub-flooring in combination with the 3mm TFP underlay.

PRODUCT COVER
