

## TF STRAIN RELIEF STAINLESS STEEL

Hook for gutter

<b>Art.no</b>	1011548
<b>GTIN</b>	7071236019534

Strain Relief for Heating Cable. Used for installation in the downspout from the gutter.

We recommend using a steel wire together with the strain relief to which the cable is attached if the downspout is more than 10 meters. The same applies if the cable is turned off during periods in winter, as ice can then form on the cable.

### PRODUCT FEATURES

- Length: 150mm
- Material: Stainless steel
- Supplied clamps and arm

### ADDITIONAL INFO

Warranty international	2 years
Customs number	84249090

How does a strain relief for heating cables work?

The TF strain relief is made of stainless steel that can withstand extreme temperatures and exposure to the elements. It has a design that makes it easy to attach the hook to the gutter, as well as a clamp that secures both the cable and a steel wire without damaging the cable.

Attachment Principle:

The mounting clamps hold the heating cable in a fixed position, so they do not slip or move. This ensures that the cable provides even heat transfer to the entire area in the downspout.

They are designed to be easy to install and remove, so maintenance and inspection can be carried out without major challenges.

**PRODUCT DIMENSIONS**

Product height/diameter	20mm	Product Width	120mm
Product length	260mm	Product net weight	65g

**MAINTENANCE**

No maintenance

**RETURN AND RECYCLING**

Recycle as metal

**DISCLAIMER**

We develop and design our products according in accordance with our strict quality requirements (ISO 9001) and environmental requirements (ISO 14001).

All electrical installations must be carried out by an authorized electrical installer. The product must be installed in accordance with our installers manual and national building codes. Any wrongful installation, misuse, damage of the product, is not covered under warranty.
