

## TF ALU TAPE 50MM 50M

Aluminium tape for heat transfer

**Art.no** 5430424

**GTIN** 7071236019404

Aluminum tape for heating cables.

The tape can also be used for, among other things, mounting self-limiting heating cables on plastic water pipes and TF Heatboard8 thermal reflective boards with grooves for heating cable.

Aluminum surface conducts electricity and has good interference shielding effect. Good conductivity, heat conduction and temperature resistane. Good peel strength, which can be bonded with a variety of polar and non-polar materials.

### PRODUCT FEATURES

- Aluminum tape for heating cables.
- Aluminium tape for heat transfer.

### PRODUCT DATA

Ambient temperature range in storage	4 to 26°C
--------------------------------------	-----------

Min. and max ambient humidity (RH%)	to 50%
-------------------------------------	--------

Material	Aluminum
----------	----------

Colour	Silver
--------	--------

### ADDITIONAL INFO

Customs number	59061000
----------------	----------

## PRODUCT DIMENSIONS

Product height/diameter	118mm	Product Width	50mm
Product length	50000mm	Product net weight	370g

## MAINTENANCE

Maintenance-free.

## ADDITIONAL INFORMATION

It is recommended to store them in a clean and dry place to prevent package damage and volatile solvents.

To maintain the best performance, this product should be used within 12 months from the date of production.

Heatit Controls AB declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

## RETURN AND RECYCLING

The product must be recycled as residual waste.

## DISCLAIMER

In order to obtain the best adhesion, the surface of the object to be pasted must be clean, dry and flat. It is important to ensure that the aluminum tape does not corrode when in contact with other metals. Aluminum tape should not be used with copper.

We develop and design our products according in accordance with our strict quality requirements (ISO 9001) and environmental requirements (ISO 14001).

All electrical installations must be carried out by an authorized electrical installer. The product must be installed in accordance with our installers manual and national building codes. Any wrongful installation, misuse, damage of the product, is not covered under warranty.
