

## MULTIREG BAKKEFØLER

|               |               |
|---------------|---------------|
| <b>Art.no</b> | 5430175       |
| <b>GTIN</b>   | 7071236012757 |

Detects moisture and temperature. The ground sensor is placed within the area to be heated, somewhere where it is exposed to precipitation. It measures both temperature and humidity at the site and sends the information to the Multireg IceControl Pro snow melting thermostat.

### PRODUCT FEATURES

- Placement: Outdoors
- Ambient temp: -20°C - 70°C
- Size (HxØ): 35 x 55mm
- A thermostat must be used in snow melting systems to regulate the system. Multireg IceControl Pro has sensors that measure temperature and precipitation. It is a natural choice for managing outdoor heat. It has options for external overrides and calibration for most conditions, which also makes it an excellent choice for large installations.
- Maintenance: The product needs to be cleaned at least each fall.
- Cold lead: 15 meters
- Voltage: 9V-8VA
- IP Code IP68

### PRODUCT DATA

|                                      |                           |
|--------------------------------------|---------------------------|
| Ambient temperature range in use     | -30 to 80°C               |
| Ambient temperature range in storage | -15 to 60°C               |
| Min. and max ambient humidity (RH%)  | 10 to 80%                 |
| Material                             | Copper<br>Stainless steel |
| Colour                               | Silver<br>Black mat       |

### ADDITIONAL INFO

|                |          |
|----------------|----------|
| IP Code        | IPX7     |
| Certification  | CE       |
| Customs number | 90329000 |

**PRODUCT DIMENSIONS**

|                         |       |                    |       |
|-------------------------|-------|--------------------|-------|
| Product height/diameter | 70mm  | Product Width      | 270mm |
| Product length          | 270mm | Product net weight | 2000g |

**MAINTENANCE**

The product needs to be cleaned at least each fall.

**DISCLAIMER**

We develop and design our products according in accordance with our strict quality requirements (ISO 9001) and environmental requirements (ISO 14001).

All electrical installations must be carried out by an authorized electrical installer. The product must be installed in accordance with our installers manual and national building codes. Any wrongful installation, misuse, damage of the product, is not covered under warranty.
