

MULTIREG TRIAC 1000W

Art.no	5430310
GTIN	7071236009450

ELECTRO TECHNICAL DATA

Voltage	230VAC 50Hz
Voltage Output	230VAC 50Hz
Switch type	Two-pole switch
Own power usage	0.2W
Max load (resistive load)	1000W

PRODUCT DATA

Colour	White RAL 9010
--------	----------------

THERMOSTAT DATA

Pulse-time (seconds)	42
Hysteresis	± 1 from set temperature
Max length of NTC sensor	50m

ADDITIONAL INFO

IP Code	IP20
Certification	CE
Customs number	90321000

**PRODUCT DIMENSIONS**

Product height/diameter	0.3mm	Product Width	1.3mm
Product length	0.7mm	Product net weight	99g

ADDITIONAL INFORMATION

Heatit Controls AB declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

Standards: EMC 2014/30/EU, LVD 2014/35/EU, RoHS 2011/65/EU

DISCLAIMER

General info;

Worth noting regarding correct installation of thermostats.

When two or more thermostats are mounted too close to each other, the heat they emit, can interfere with the temperature sensors and the temperature in the junction box becomes too high. This can cause inaccurate temperature readings, especially under high load, leading to incorrect heating control. To avoid such issues, thermostats should be installed as far apart as possible and always in separate junction boxes. This ensures more accurate temperature readings.

In multi-frames with multiple units, the thermostat should always be mounted at the bottom, and no more than one thermostat should ever be installed in a multi-frame.

All electrical installations must be carried out by an authorized electrical installer.

The product must be installed in accordance with our installers manual and national building codes. Any wrongful installation, misuse, damage of the product, is not covered under warranty.

Updated documentation is available at www.heatit.com or documents.heatit.com

Heatit Controls AS can not be held liable for any type of errors or omissions in our product information.
