

PRODUCT FEATURES

- Supplied on a roll: 10 m².
- Roll size: 1 x 10 metres.
- Self-adhesive mat for fast and easy installation.
- Can be used on concrete, self-levelling compound, chipboard, wooden floors and existing tiled surfaces.
- Can replace floor gypsum board/masterboard in relevant installations.
- Pre-formed grooves adapted for 3.5 mm heating cable.
- Ensures correct and even cable spacing.
- Protects the floor against cracking caused by movements in the substrate.
- Self-adhesive underside for easy positioning and attachment to the substrate.
- Must not be exposed to added moisture after installation before further covering.
- Installation height: 6 mm.

PRODUCT COVER

Carpet floor, Cork , Flooring, Laminate floors, Parquet floors, Slate, Tiles, Vinyl

Heatit QuickMat must be covered with suitable tile adhesive or self-levelling compound. The mat and heating cable must be fully embedded in the covering to ensure good heat transfer, a stable floor construction and protection of the cable., , When installing under tiles or natural stone, a suitable flexible tile adhesive must be used. When installing under other approved floor coverings, the mat should be covered with a suitable self-levelling compound before the final floor covering is installed., , Important: The covering thickness and type of compound must be adapted to the substrate, selected heating cable, final floor covering and the supplier's instructions. For the self-adhesive model, the mat must not be exposed to added moisture after installation before further covering, as this may affect the adhesive bond.

HEATIT QUICKMAT STICKY DECOUPLING MAT 10M2

Sticky Decoupling Mat for heating cable 6mm

Art.no	1011229
GTIN	7071236020066

Heatit QuickMat Self-Adhesive is a self-adhesive polypropylene mat with rounded, square studs. The mat has pre-formed grooves for easy and precise installation of Heatit 3.5 mm heating cable, ensuring a fast and efficient installation.

The flexible cable positioning helps provide even heat distribution across the entire floor surface. The underside is coated with self-adhesive glue, making the mat easy to attach to a clean, dry and stable substrate.

Heatit QuickMat Self-Adhesive is supplied on a roll and covers 10 m². The roll size is 1 x 10 metres and the installation height is 6mm.

The mat is used together with tile adhesive and self-levelling compound, and is well suited for installations where a fast, stable and flexible solution for electric underfloor heating is required.

The product is well suited for use with Heatit heating cables:

Heatit GVK 6 W/m

Heatit BVK 10 W/m

Heatit RVK 13 W/m

Note: After installation, the mat must not be exposed to added moisture before further covering, as this may reduce the adhesive bond to the substrate.

HEATING CABLE SUBSTRATE DATA

Boards per carton (pcs)	1
Sheet Thickness	6mm
Covered area per package (m ²)	10m ²

**PRODUCT DIMENSIONS**

Product height/diameter	6mm	Product Width	1000mm
Product length	10000mm	Product net weight	10000g

MAINTENANCE

No maintenance.

RETURN AND RECYCLING

Must be delivered as plastic waste to an approved waste reception or recycling station.
Normally sorted as rigid plastic / plastic from building materials.
Must not be disposed of as residual (general) waste.

DISCLAIMER

After installation, Heatit QuickMat must not be exposed to added moisture, as this may cause the adhesive on the underside to detach from the substrate.
